

Ice breaker cruise

The tour starts out in the Bothnic gulf breaking the icy sea. Watch and listen from the deck the enormous slabs of ice tumble around in the endless ice landscape. The captain's open-bridge policy also calls for a visit. Guests will get the opportunity to step down from the boat and walk on the ice around it and if someone dares – take a swim in the icy water with survival suits.

Duration of cruise: 2 hrs incl stop for ice-swimming in survival suite
