Snowmobile expedition to the pack-ice

You will be equipped for a full-day safari out to the pack-ice of the northern archipelago. During the trip we stop for a cup of coffee or warm lingonberry juice and we try some ice-fishing by drilling holes in the ice. We continue the trip to our main goal for the day – the endless fields of pack-ice by the island of Brändöskär. On the way we will pass the icebreaker-track, lighthouses and fishing villages. A spectacular safari with a unique scenario. At Brändöskär we make a fire and cook today's lunch, rounding off with a cup of coffee. We visit the old fishermen-village on the island and take a look inside one of the cabins and also in the small chapel.

Duration of tour: 4 – 6 hours.
